

Welcome

ATF + INRA + EAAP
Special session

Towards
more
sustainable animal
production
systems.

Thursday August 29 2013 | 8:30 – 12:30 | Nantes, France

A Special Session

Joint organisation

EAAP

INRA

ATF

- 🌐 not purely scientific
- 🌐 exploring the future of animal production and animal science

A Special Session

What will future sustainable animal production systems look like?

What are the knowledge gaps and research needs to achieve this?

Can the current scientific system deliver?

Core themes of this special session

Responsible animal production systems

By Jean-Louis Peyraud (INRA)

Resource efficiency

By Ruud Tijssens (FEFAC)

Healthy livestock and people

By Thierry Pineau (INRA)

The Animal Task Force

- Promoting a sustainable and competitive animal production sector in Europe.
- By fostering knowledge development and innovation.

ATF members

Industry represented by European
Technology Platforms

EATIP, EUFETEC, FABRE-TP, ETPGAH

Major European research providers

**INRA, WUR, SRUC, UniBonn, University
of Milan, Aarhus University, MTT,
Polish Academy of Sciences, Teagasc,
SLU, IBNA, INIA**

What we do

Developing dialogue with key stakeholders in Europe.
(European Commission, Members of Parliament, industry organisations, NGOs)

Providing input on EU research & innovation policy.
(Horizon2020, EIP, JPI FACCE, SCAR)

Enhance cooperation in European and interstate research and innovation

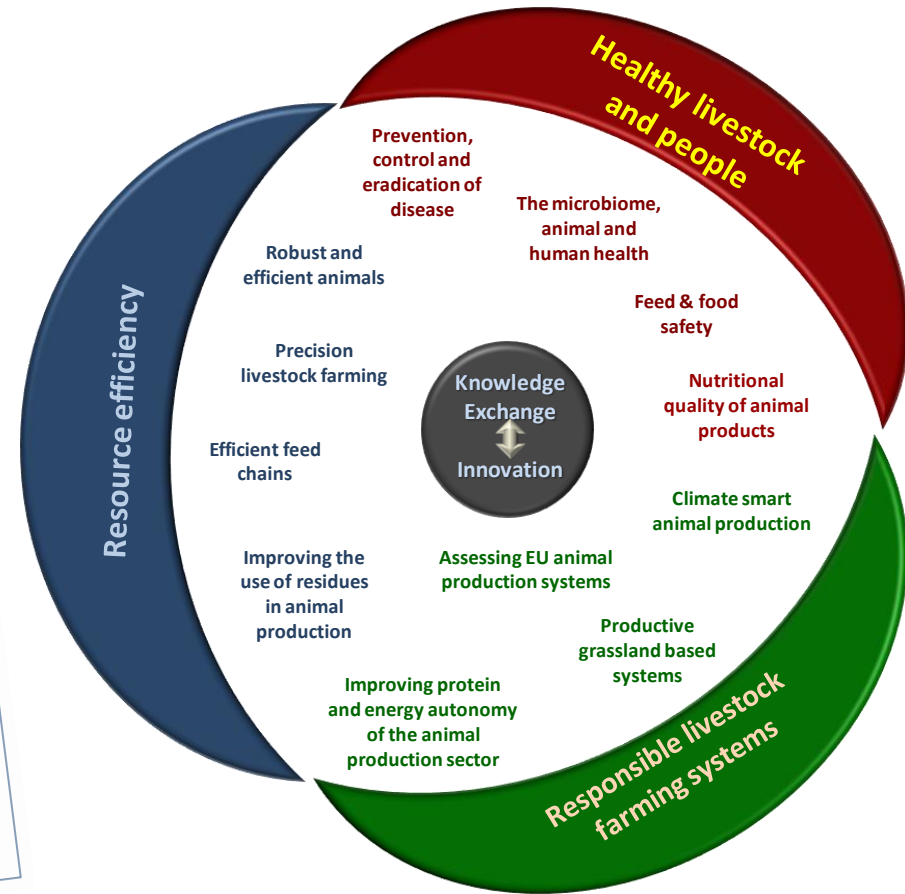

Enable knowledge exchange amongst research providers, end users and EU Directorates.

ATF white paper

Providing input on research & innovation policy

➤ Horizon 2020 - Societal challenge 2: Food security, sustainable agriculture, forestry, marine and marital resources, and the bio economy.

Upcoming activities

6 November 2013, Brussels

ATF seminar 'Responsible livestock farming systems'

MEPs and Council agree on Horizon2020
The Irish Presidency, the European Parliament's negotiators and the European Commission have concluded negotiations on the EU's next research and innovation programme, Horizon 2020, ending...

ATF as broker

Why ATF at EAAP?

What can science offer to the R&D needs?

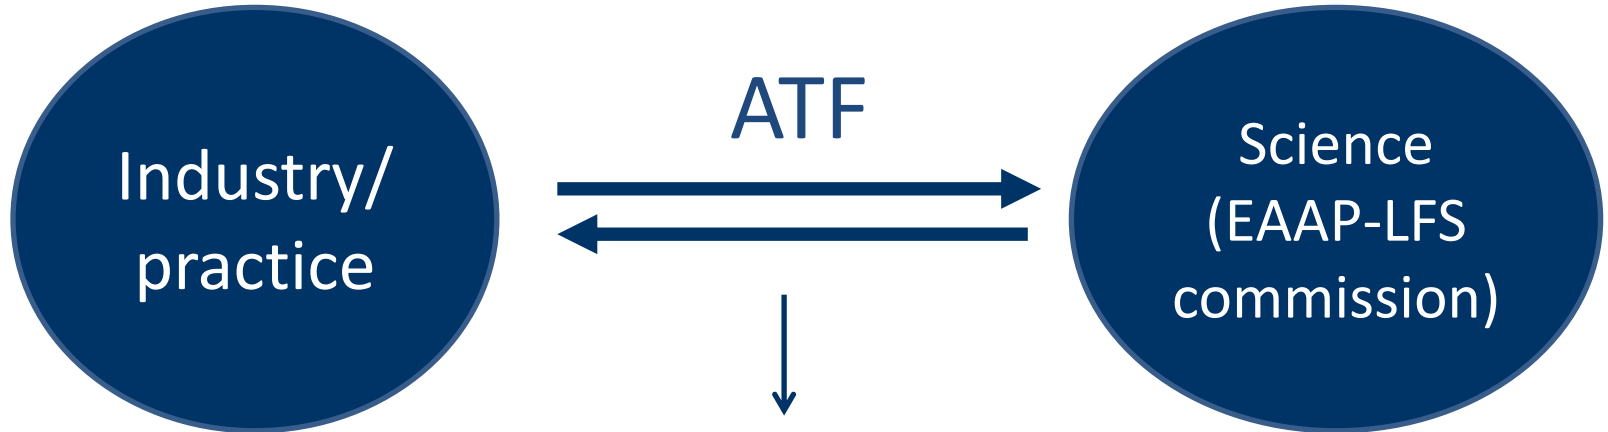

Programme

- 8:30 | Welcome
By Martin Scholten (Chair of the Animal Task Force)
- 8:40 | Introduction
By Alberto Bernues (president EAAP Livestock Farming Systems commission)
- 9:00 | Block 1: Responsible animal production systems
By Jean-Louis Peyraud (INRA)
- 9:45 | Block 2: Resource efficiency
By Ruud Tijssens (FEFAC)
- 10:30 | Break
- 11:00 | Block 3: Healthy livestock and people
By Thierry Pineau (INRA)
- 11:45 | General discussion: From knowledge to innovation –
how to modernise animal research towards the future
research needs?
- 12:20 | Closure / wrap-up
By Alberto Bernues

Discussion

Vision on R&D needs

What can science offer to the R&D needs?

DISCUSSION

How can science better serve industry needs?

DISCUSSION

How can we improve implementation of research in practice?

DISCUSSION

How can we better share knowledge and data (with in science and with private sector)?

DISCUSSION

How can we communicate research better to improve the image and appreciation of animal research?
