

Bio Base Europe
Pilot Plant

We take your innovation to the next level

A wide range of biobased products developed at the Bio Base Europe Pilot Plant

Alternative proteins

Biomass proteins for food and feed applications

Precision fermentation proteins: e.g. milk and egg proteins, collagen, ...

Specialty carbohydrates

Human milk sugars, low caloric sweeteners, prebiotics, etc

Materials

Spider silk, vegan leather, bioplastics (PLA, PHA, PEF, etc)

Colorants

Blue, orange, red and yellow colorants and pigments

Functional ingredients

Cannabinoids, microbial cultures in cosmetic creams

Biosurfactants in detergents and emulsifiers

Medical biotech-products

Enzymes for diagnostic use (e.g. Covid-19) and pharmaceutical synthesis, new antibiotics, etc

Biopesticides

Biopesticides in the form of proteins, microbial cultures and biochemicals
